## MINING IN ARIZONA.

C. B. Bosworth returned last Friday from Cochise county Arizona where he has been for the past three weeks looking after the interests of the Queen of Sheba Mining company, of which he is president and William Herring of Tucson is vice-president. Mr. Bosworth informs us that the company is at present driving a tunnel to cut the main vein at a greater depth than has been reached by any previous working and that they expect to reach the vein in a short time. They are also sinking a winz which shows a four foot vein of good ore at the present time.

This property was a large producer of high grade ore in the surface workings some years ago and the present owners feel sure that they will have a good thing when they reach the vein with the tunnel they are now driving. Mr. Bosworth expects to return to Arizona as soon as he can arrange his business here to leave for another month and we hope his property may prove a veritable bonanza.

## POLICE COURT

An interesting case came up before Judge Pennington Monday morning. Mrs. Mary Collins made complaint against Lloyd Dorman, Harry Morrison H. G. Myers and Chas. Pauli, for house breaking. The two former claimed to be vandiville artists while the latter said they were hunting work., as there was no evidence as to their committing any crime they were released and advised if they could not get work soon, to leave town, the evidence showed that Dorman entered a room, where a lodger was sleeping, by way of the trap door over the door so he was held to await action of the grand jury. Morrison could only be convicted of vagrancy so was given a limited time to leave town, which he proceeded to do.

Yesterday morning, on the complaint of Guadalupe Chavez, Judge Pennington tried Ben Herrera, David Ordonez, Elaso Gomez and Pedro Cruz, for assault and battery, the evidence showed that these parties went to the home of Chavez at noon Monday and called him out for the purpose of giving him a beating but as he came out accompanied with a razor they did not carry out their design and Herrera is now nursing a lame arm in consequence. On the trial it appeared that Ordonez was simply trying to prevent trouble and induce his companions to leave the place so he was discharged and the others were fined \$5.00 each and costs.

## Cures When Doctors Fail.

Mrs. Frank Chaisson, Patterson, La., writes June 8th, 1901: "I had malaria fever in a very bad form, was under treatment of doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then I bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine 50c bottle at J. P.
